SUMMARY

Innovative Full-Stack Developer with expertise in ReactJS, .NET, NodeJS, and TypeScript, delivering scalable and user-friendly systems. Experienced in both frontend and backend development, API integration, and leading small teams.. Passionate about clean code, performance optimization, task management, mentoring junior developers, and overseeing end-to-end project delivery.

CAREER HIGHLIGHTS

- Promoted to Assistant Lead Developer within one year for demonstrating initiative and innovation.
- Delivered 5+ enterprise-level systems for SMEs across HR, franchising, and retail domains.
- Integrated advanced APIs including FaceAPI, Xendit, Stripe, and Checkout to enhance system capabilities.
- Recognized for innovation and integrity, awarded 'Pillars of Integrity and Accountability' (2024).

SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Blazor, MudBlazor, Tailwind, Bootstrap, Material UI, Zustand, Redux, Next.js

Backend: .NET Core, Node.js, Express.js, Entity Framework Core, LINQ

Database: MSSQL, MySQL, MongoDB, CosmosDB

Integrations: Webhooks, Third-Party APIs (OpenAI, Xendit, Checkout, FaceAPI, Geofencing)

Others: Object-Oriented Programming (OOP), Model-View-Controller (MVC), Git, GitHub

PROFESSIONAL EXPERIENCE

Assistant Lead Developer

Simplified Business Consultancy

06/2025 - Present

Quezon City, Philippines

- Assist the Lead Developer in planning, code review, and quality assurance.
- Mentor junior developers to improve coding standards and productivity.
- Designed and developed a Lead Management System for a marketing agency using React, TypeScript, and .NET.
- Built a Franchising Clinic System supporting multi-branch operations (sales, inventory, and employee management)

System Developer

Simplified Business Consultancy

03/2025 - 06/2025

Quezon City, Philippines

- Developed a Human Resource Information System (HRIS) using Blazor and .NET, improving HR process efficiency.
- Integrated Checkout API for secure international payment processing.
- Contributed to a Dubai-based All-in-One System with React, .NET, TypeScript, implementing FaceAPI and geofencing for secure attendance tracking.

L2 Junior Software Developer

Simplified Business Consultancy

09/2024 - 03/2025

Quezon City, Philippines

- Delivered an All-in-One System for SMEs using .NET and Blazor, integrating Xendit API for seamless payment processing.
- Led client presentations and onboarding to ensure smooth system adoption and implementation.
- Developed a franchising system with integrated inventory, POS, payroll, and reporting modules.

Junior Software Developer
Simplified Business Consultancy

03/2024 - 09/2024
Quezon City, Philippines

- Built an online store management system using .NET and Blazor with POS, real-time updates (SignalR), and financial reporting.
- Supported client onboarding to ensure smooth adoption.
- Created an online consultancy platform using .NET Framework with OpenAI automation, scheduling, and payment integration.

Junior Web Developer
PAPH Travel and Tours

07/2023 - 03/2024
Quezon City, Philippines

- Contributed to a web-based internal booking system using React.js, Material UI, and Redux.
- Improved user experience through optimized state management and responsive design.
- Collaborated with developers to integrate APIs built with Node.js, Express.js, and .NET for seamless travel booking functionality.

IT Associate - Intern
Qualimed Hospital

01/2023 - 04/2023
City of San Jose Del Monte, Bulacan, Philippines

- Assisted in maintaining the organization’s IT infrastructure to ensure smooth daily operations.
- Provided technical support and resolved system issues for end users.
- Developed a Helpdesk Ticketing System using React.js, Node.js, Express.js, and MySQL to streamline issue tracking and resolution.

EDUCATION

Bachelor of Science in Information Technology
Bulacan State University - Sarmiento Campus

2019 - 2023
City of San Jose Del Monte, Bulacan, Philippines

- Built a Property Rental Management System using React.js, Node.js, Express.js, and MySQL to streamline listings, tenant management, and rental transactions.
- Developed a Document Request System for a school to automate submission and tracking, improving administrative efficiency.
- Earned Dean’s Lister recognition and awarded Best in Web Development.
